AR-E210
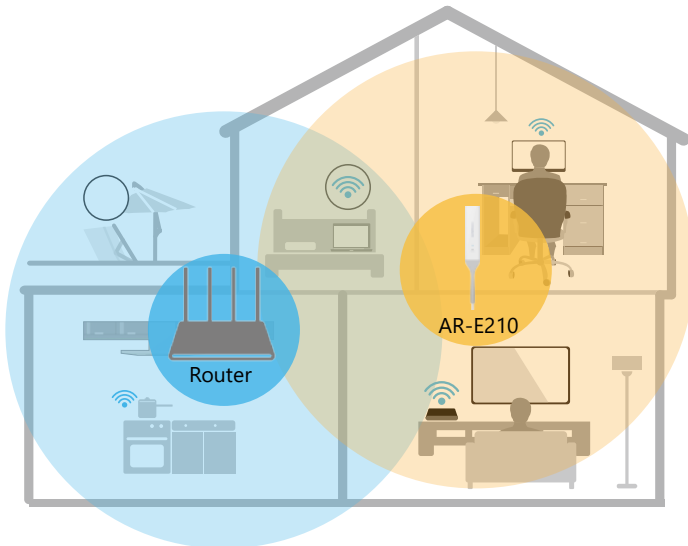

300Mbps USB Wi-Fi Range Extender

Description

The AR-E210 is designed to expand your Wi-Fi signals to areas of your home where your standard router cannot reaches. It supports wireless speeds of up to 300Mbps and provides fast and reliable connections for your mobile devices, media players and laptops. Integrated with the MIMO technology, your wireless speed is 3 times faster than other 300Mbps range extender.
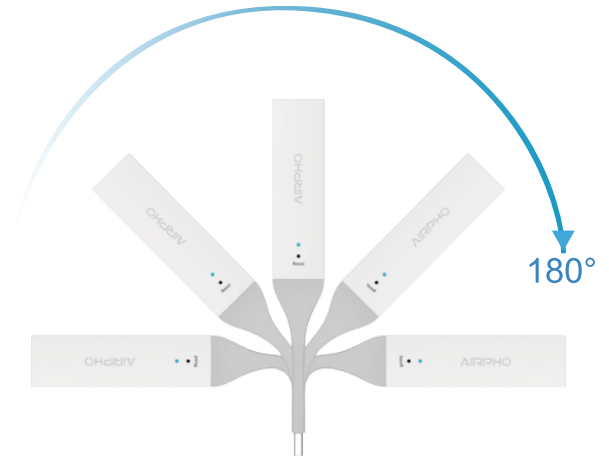

Its flexible design makes it bendable to any angle up to 180 degrees, allowing you to adjust the extender's angle and maximize the wireless signal strength and reliability. What's more, you can power on the AR-E210 by simply plugging it into any USB ports (on any computer or USB power adapter). This gives you maximum flexibility in finding a good spot to expand your Wi-Fi signal and makes sure you can access to Internet wherever you need it.
